-2- **Load!** Fill Tank with Liquefied Air

-3- **Drop!** Generates Power
Via Boat Cable

-5- **Rise!** Generates Power Via Boat Cable
Bubble Expands Generating More Power

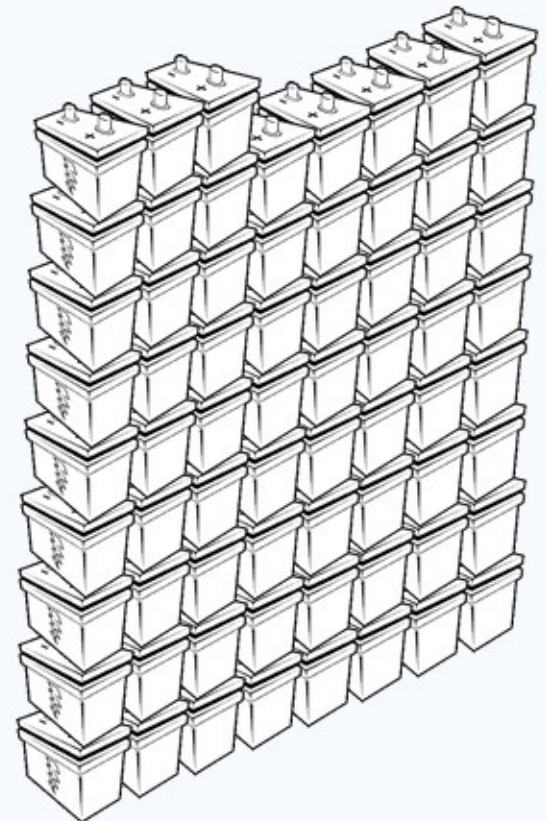

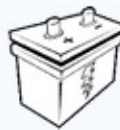

Cost of State Changes

45 KW INPUT

VS

Electricity Generated
6000 KW OUTPUT

-4- **Release!** Liquefied Air Now Gas
Displaced Water Creates Lift

FREE ENERGY

- State Change
- Thermal Balance

***Gravity is a Constant — A Perpetual Force
Capable of Generating Energy in Perpetuity***

This **TECHNOLOGY GIFT** carries a fearful label. Get beyond it. Perpetual Motion is a dirty phrase. Only re-branded as Free Energy can it be discussed without immediate rejection. The truth is, Nature already does it. Otherwise, Niagara Falls would have run dry millennia ago. These devices work because Nature is an Obsessive Compulsive, everything must be in its proper place, and a State Change disrupts the balance. Nature must fix it, and does it for free.

A turbine dropped into the Ocean is pulled down by gravity and generates electricity. Executing a cheap state-change, the discharge of compressed air to displace water, turns the turbine's weight into buoyancy. Gravity now pushes the turbine upwards, extracting more energy. Elevation is an overlooked ocean resource. It is key to tapping Nature's limitless gravitational field by executing very inexpensive state changes.

Free Energy means abundant clean water, this millennium's Gold Rush, to turn Pakistan to West Africa green, a territorial mass double the United States. **This Ends World Hunger.** This is the greatest discovery since the wheel. Be a part of History and share it.
